

Name: Mark Herrmann

Role: Vice President, Supplier Business Development

RNDC Work Location: Atlanta, GA

Date of Hire: 7/1/2015

Why is environmental sustainability important to you?

My daughters. They have taught me to be more conscience about the environment, a lesson I failed to learn when I was their age.

How do you contribute to reducing your environmental impact – personal and/or professional. What areas of impact or organizations are you most passionate about?

In our business there is a need to do better in POS (Point of Service) management. We can and should partner with our suppliers to find better ways to reduce waste. It's a mission for me moving forward.

Why is having the Green Team important and why did you volunteer to be one of the group leaders?

This is an area that is very important to our supplier partners and brands. They are the lifeblood of our business and we should make every effort to hold ourselves to the same standards and level of accountability.
