

Name: Margaux Kugelman  
Role: Portfolio Director, On Premise  
RNDC Work Location: Tustin, California

**Why is environmental sustainability important to you?**

Focus on sustainability is vital as it encompasses how every natural system works, so that we can continue to have a world that is in balance now and in the future.

**How do you contribute to reducing your environmental impact – personal and/or professional?**

I am a big believer in gardening to grow my own herbs and vegetables, composting organic material and focusing on planting milkweed gardens for Monarch Butterflies to thrive.

**Why is the Green Team important and why did you volunteer to be one of the group leaders?**

Sustainability is a way of life and as we continue to grow as a company, there are many practices we can adopt to help RNDC reduce its environmental impact. Being a part of the Green Team allows me to speak with like-minded associates and advocate for partnering with companies that have sustainable products and are B Corp certified.
